CONTINUOUS ASSESSMENT

TURTLE & RABBIT
TUTORING
AGENCY

The purpose of our continuous assessment package is to enable the student to keep track of his / her progress, and keep a structured approach towards scheduled test and examinations. At Turtle & Rabbit Tutoring Agency we provide continuous assessment in three distinct forms: online quizzes, mock tests and mock examination papers.

The result of each assessment is relayed back to the student within one week of completion of the said assessment. Dissection of the assessment may be done by the student on his / her personal time, or it may be used in a online tutoring session as revision. These assessments are compiled into a portfolio for the student, and is released at the end of every semester before the start of exams. Continuous assessment structure is dependent and designed from the grade of the student. Grade 12 students will receive more assessment opportunities than the lower grade pupils. It is important to note that these assessments do not replace the assessments done in class, but may be seen as supplemental material for examination preparation.

The table below contains the information regarding the extent of continuous assessment for each student grade. Grade 8 learners do not receive as many assessments as higher grades, as the curriculum is not that extensive in comparison. Grade 12 students however receive a considerable amount of assessment material. This is done to ensure that the student is properly prepared for the important year-end examinations.

Continuous assessment according to student grade

Student Grade	Quizzes	Mock tests	Mock examinations
Grade 8	4	2	1
Grade 9	5	2	1
Grade 10	5	2	2
Grade 11	5	3	2
Grade 12	8	5	4

ONLINE QUIZZES

The registered student will receive online quizzes randomly spread out over the semester. Every quizz will consist of a minimum of 10 questions, for which the memo will be provided afterwards. These online quizzes will be hosted on different platforms depending on the availability of services, accessibility and student preference.

The link for the quizz will be sent to the student via email or any other preferred social link. With the online tutoring sessions and continuous assessments, the main communication channel will be emails. Reminders and notifications will be sent via email.

MOCK TEST

To prepare for school semester and class tests, the registered student will receive a certain number of mock tests, mimicking the tests that are written at school. The mock tests will cover important topics of the curriculum, and expand the textbook chapters to the next grade year by including one or two subsections from the following year's curriculum. The memoranda of the written mock tests will be made available once the written test have been received from the registered student.

MOCK EXAMINATIONS

To prepare for school and government examinations, the registered student will receive a certain number of mock exam papers, mimicking the exam papers that are written at school. The mock exam papers will cover all of the curriculum topics. The memoranda of the written mock exam papers will be made available once the written exam paper have been received from the registered student.

STUDENT PORTFOLIO

All of the completed assessments by the registered user will be compiled in a portfolio and sent to the registered student and parents for review. This portfolio MAY also help when a student needs a percentage or two for a pass or distinction, and negotiations between parents and teacher need to take place. Please be reminded that it MIGHT help and is definitely not guaranteed. We at Turtle & Rabbit Tutoring Agency do not take responsibility for the portfolio being set equal or higher than government examination results.
